PATENT COOPERATION TREATY PCT

INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference			OR FURTHER ACTION 20 as well as, where applicable, item 5 below.
International application No. PCT/US2012/XXXXXX	International filing da	te (day/month/year)	(Earliest) Priority Date (<i>day/month/year</i>)
Applicant XYZ TECHNOLOGY, LLC et al	l.		
This international search report has been prep Article 18. A copy is being transmitted to the This international search report consists of a t It is also accompanied by a copy	e International Bureau. otal of 4 sheets.		is transmitted to the applicant according to
1. Basis of the report			
a. With regard to the language , the inter	national search was car	rried out on the basis of:	
X The international appli	ication in the language	in which it was filed.	
	ternational application i tules 12.3(a) and 23.1(b		of a translation furnished for the purposes of
	has been established ta	king into account the rectif	ication of an obvious mistake authorized by or
c. With regard to any nucleotide a	and/or amino acid sequ	uence disclosed in the inter-	national application, see Box No. I.
2. Certain claims were found un	searchable (See Box N	lo. II).	
3. Unity of invention is lacking (See Box No. III).		
4. With regard to the title ,			
X the text is approved as submitted	d by the applicant.		
the text has been established by	this Authority to read a	as follows:	
5. With regard to the abstract ,			
X the text is approved as submitter			
the text has been established, ac month from the date of mailing			rs in Box No. IV. The applicant may, within one ts to this Authority.
6. With regard to the drawings ,			
a. the figure of the drawings to be publi	shed with the abstract i	s Figure No. 1	
as suggested by the ap	plicant.		
as selected by this Aut	hority, because the app	licant failed to suggest a fig	gure.
X as selected by this Aut	hority, because this fig	ure better characterizes the	invention.
b none of the figures is to be publ	ished with the abstract.		

A. CLASSIFICATION OF SUBJECT MATTER *A61B 5/07 (2006.01)*

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

WPI, EPODOC: IPC A61, G01 & Keywords (detect, anastomosis, leakage, in vivo, intra-body, wireless, fluid, gas, post-operative, colon) & like terms; MEDLINE: Keywords (detect, gas, leakage, colon, wireless) & like terms; INSPEC: Keywords (detect, gas, leakage, anastomosis) & like terms.

Applicant(s)/Inventor(s) name searched in EPODOC and internal databases provided by IP Australia.

C. DOCUMENTS CONSIDERED TO BE RELEVANT						
Cate	egory*	Citation of document, with indication, where appropriate, of the relevant passages Relevant to claim No.				
	Documents are listed in the continuation of Box C					
XFurther documents are listed in the continuation of Box CXSee patent family annex						
* "A"	A" document defining the general state of the art which is not considered to be of particular relevance "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory					
"E"		underlying the invention ier application or patent but published on or after the rnational filing date "X" "X" underlying the invention document of particular relevance; the claimed invention cannot be considered nove or cannot be considered to involve an inventive step when the document is taken alone			be considered novel locument is taken	
"L"	which is c	which may throw doubts on priority claim(s) or eited to establish the publication date of another r other special reason (as specified)	"Y"	docum involve	nent of particular relevance; the claimed invention cannot re an inventive step when the document is combined with locuments, such combination being obvious to a person sk	one or more other
"O"		referring to an oral disclosure, use, exhibition				
"P"		published prior to the international filing date han the priority date claimed				
Date o	Date of the actual completion of the international search Date of mailing of the international search report
