Patent Searching Coverage and features provided on the Internet (as at 6 May 1999)

		USPTO Full Text	USPTO Abstract	IBM IP Network	Esp@aceNet B2 {freetext database}
Country coverage		US	US	US, EP, WO, JP	US,EP,WO, GB,FR,DE, CH,JP
Patent Coverage from & start year. (Earliest Patent, Month/Year)		US 3930271 1/1976	US 3930271 1/1976	Text US3590129 6/1971 WO9700001 1/1997 JP06000001 1/1994 Images US3781914 1/1974 EP1 12/1978 WO9800001 1/1998 JP06000001 1/1994	US3557648 1/1971 GB1204171 9/1970 EP1 12/1978 WO7800001 10/1978 FR2728759 7/1996 DE19628898 1/1997 CH607813 11/1978 JP51127546 11/1976
Searchable area	Full text	Yes	No	No	No
	Claims	Yes	No	Yes (US only)	No
	Abstract	Yes	Yes	Yes (WO & EP titles)	Yes
Text Retrieval	Full Text	Yes	No	No	Yes (not JP)
	Chemical Formula	No	No	No	No
	Claims	Yes	No	Yes (US only)	Yes (not JP)
	Abstract	Yes	Yes	Yes (not EP)	Yes
Image Retrieval	Full Text	Yes	No	Yes (not JP)	No
	Abstract	Yes	No	Yes	No
	Drawings	Yes	No	Yes (JP front page only)	Yes (JP front page only, JP55000003 Jan 1980)
	Image Quality	Excellent	N/a	Good but prints go over multiple pages	Excellent
Family Equivalents		No	No	Yes US EP WO only	Yes

		USPTO Full Text	**USPTO Abstract**	**IBM IP Network**	**Esp@aceNet B2 {freetext database}**
Speed of Retrieval (single document)	Text	Excellent 20 sec.	Excellent 10 sec.	Excellent 15 sec.	Excellent 20 sec.
{the times are a rough guide only}	Images (per page)	Excellent 30 sec.	n/a	Good 50 sec.	Excellent 15 sec.
Searching	Boolean Algebra	Yes	Yes	Yes	Yes
	IPC Searchable	Yes	Yes	Yes	Yes
	Truncation - wilds	Yes ($)	Yes (*)	Yes (*)	No
	Phrases	Yes	Yes	Yes	Yes
	Proximity	No	No	Yes within 256 words	No
Piggybacking	Referenced by	Yes includes Title	Yes includes title	Yes includes title	No
	References	Yes	Yes	Yes includes title	No
Search Report		Yes	Yes	Yes	Yes
Relevance Ranking		No	Yes	Yes	No
Sample IPC entry format		ICL/H05k0 01/$	ICL/H05k-001/*	H05K 001/	H05k1/
Additional Software required		To view images requires a freely available Internet Explorer plugin USPTO policy	None	None	To view images requires Acrobat reader and an AR ActiveX plugin Esp@ceNet help
Security		Site specifies that there is no recording or logging of searches USPTO policy	Site specifies that there is no recording or logging of searches USPTO policy	Site does not attempt to determine usage patterns & designed to provide anonymity for all searches IBM policy & policy	No mention is made of the logging or not of searches

		USPTO Full Text	USPTO Abstract	IBM IP Network	Esp@aceNet B2 {freetext database}
Comments				The IPC mark is entered entirely in UPPERCASE	Click buttons at page top for text retrieval.
				Automatically defaults to search the word stem unless specifically disabled. (ie *inject*, *inject*ing, & *inject*ion will all return the same search results)	Does not handle complex searches. Complex searches of 5+ terms not possible
					Provides several databases which only cover the last 24 months of information

Provides a Worldwide database which covers **all** available data |
| | | | | | To print documents must use the print button on the Acrobat Reader Toolbar |

Tips to speed up downloading time
Open multiple browser windows by using the right mouse button and choosing the "Open in New Window" option. Allows multiple documents to be downloaded at once.
The browser currently has set the option to automatically download all images. If this option is unset then only text is downloaded, this is the fastest downloading option.

No site listed above offers the use of encryption {or similar system (SSL)} of search statements sent over the Internet.
